Accuride®

StowAway™ Slide

3600-200/3600-201

Accuride's new StowAway™ slide offers a unique solution to a growing trend in consumer cabinetry—a slide that keeps containers hidden away. Now, kitchen recycling bins, waste containers or compost scrap buckets are kept neatly out of sight. Other application ideas: laundry baskets, vegetable or pet food bins and more.

Features and Benefits

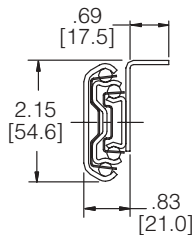

- **Handed lever disconnect** for easy removal.
- **Attached brackets** permit side, top or bottom mounting.
- **Self-closing action** begins within 2-1/2 inches [63.5mm] from the cabinet opening.

Installation

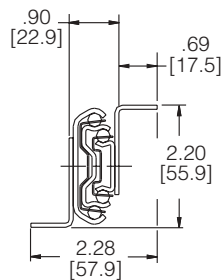

- **Model 3600-200** has a fixed inboard bracket to carry the platform. The slide's outer member side-mounts directly onto the cabinet sidewall.
- **Model 3600-201** includes a fixed inboard top bracket and outboard bottom bracket that permits the slide to be mounted to the top or bottom of the cabinet. Depending upon mounting style, the platform may be affixed to either bracket.

Availability

- Electroplate clear zinc finish.
- Offered in a 22-inch length designed to fit standard cabinetry.
